

"We love God, We love learning, We love each other."

School systems used at St Marys RC Primary School

We use 3 online systems:

Schoolcoms

This system is our main communication system, it is app based and you will receive updates, essential information, be able to change your child's personal details, book on and pay for clubs and trips and much more.

This system is app based and will need to be downloaded from your app store:

Search School Gateway Download the app and register with your email address and phone number, these MUST match what we hold on file for your child, once these have been confirmed you will be sent a pin to verify your account.

School Grid

Our lunches are provided by Dolce who use the School Grid system for ordering and payments of school dinners.

You will be sent an email from no-reply@schoolgrid.co.uk follow the link to register for your child's school dinner account, this is web based and not an app. Pre order and pay via this system.

School grid- 01506 300310 for any issues using the system or making payment

Dolce- 01942 707709 for any issues with the menus, food or late orders

Medical Tracker

As a parent you do not need to register for this system, we log and report any minor injuries, accidents or incidents, parents are notified via an email for anything that has been logged. If your child has any health issues please complete a Health Care Plan, this will be placed on the system for you to confirm.
